

## Dayflow 2015 Water Year Update

- An update of Dayflow was run with the following “Approved” USGS data:

USGS Site #	Site	Status as of 05/03/17
11303500	San Joaquin River near Vernalis	Approved
11325500	Mokelumne River at Woodbridge	Approved
11335000	Cosumnes River at Michigan Bar	Approved/ Provisional
11336600	Delta Cross Channel near Walnut Grove	Provisional
11447650	Sacramento River at Freeport	Approved
11447903	Georgiana Slough near Sacramento River	Provisional
11453000	Yolo Bypass near Woodland	Approved

- The provisional data for station 11336600 (Delta Cross Channel near Walnut Grove) has significant data revisions from when we first ran Dayflow in December 2015. Data for the following periods were removed in the updated provisional version of the data: 10/26/14-11/8/14, 11/30/14-6/17/15, 6/21/15-6/27/15, 7/18/15-7/25/15, 8/2/15-8/15/15, 8/22/15-8/25/15, 8/31/15-9/3/15, 9/23/15-9/26/15, and 9/28/15-9/30/15. The missing data affects the calculation of QXGEO which then affects the calculations of QWEST and QRIO.
- The provisional data for station 11447903 (Georgiana Slough near Sacramento River) has data revisions from when we first ran Dayflow in December 2015. Data for the following periods were removed in the updated provisional version of the data: 10/9/14-10/15/14, 10/25/14-10/29/14, and 12/3/14-12/7/14. The missing data affects the calculation of QXGEO which then affects the calculations of QWEST and QRIO.
- Most questions regarding Dayflow can be found in the “Dayflow Documentation” found here: <http://www.water.ca.gov/dayflow/documentation/>
